No More Stains & Odours

Dual action formula eliminates tracking and is extremely effective, working on old and deep stains and odours. Suitable for use on carpets, hard floors, upholstery, linens, clothing and pet bedding. Deeply penetrates to eliminate tough pet stains and odours including urine, faeces and vomit.

No More Vomit

Completely removes the toughest pet vomit stains and odours leaving behind a pleasant fragrance. Powerful formula utilises deep penetrating enzymes and oxygenates ingredients to remove all traces of vomit including sticky surface residue. Contains a dual action odour control system that begins to destroy odours on contact. Suitable for carpets, upholstery, linens, clothing, blankets, pet bedding, walls and any other location where the pet has vomited.

No More Urine

Completely removes the toughest pet urine stains & odours leaving behind a pleasant fragrance. Powerful formula utilises deep penetrating enzymes & oxygenated ingredients that remove all traces of urine. Contains an odour neutraliser agent that starts destroying odours on contact and discourages re-marking. Suitable for carpets, upholstery, linens, clothing, blankets, pet bedding, walls and any other location where pets have urinated.

No More Marking

Prevents pets from revisiting and marking or soiling the same spot twice. When sprayed on previously marked areas it will remove existing stains and odours leaving behind a pleasant aroma that dogs don't like. Ideal when trying to eliminate bad marking habits.

3 In 1 Odour Remover

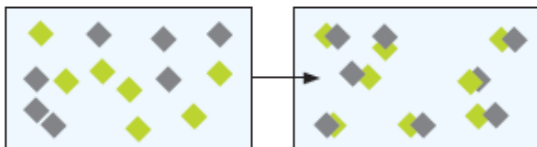

Ultimate pet odour remover for airborne, fabric and hard surface odours. Formula reacts with unpleasant pet odours, destroying them on contact on every surface. Spray in the air or on surfaces such as pet beds, cages, sofas, carpets, cars etc.

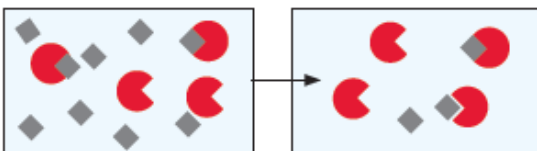

What makes Yours Droolly® Stain & Odour unique?

Yours Droolly® & Trouble & Trix® range offers pet specific enzyme & oxygen formulas that consume the molecular structure of the stain/odour, removing it completely from the environment. Common household products are often chemical cleaners that bind to pet stains and odours. This may neutralise the organic stain/odour but often fails to remove it completely.

CHEMICAL BASED CLEANERS

YOURS DROOLLY® ENZYME & OXYGEN FORMULA

UNLIKE COMMON CHEMICAL CLEANERS, YOURS DROOLLY® DOESN'T MASK STAINS AND ODOURS, IT REMOVES THEM COMPLETELY

Different types of enzymes act to breakdown different types of organic matter

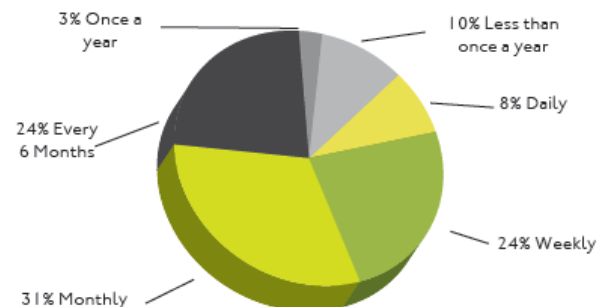

PROTEASE: Breakdown proteins found in vomit, faeces, blood, urine

AMYLASE: Breakdown starches found in vomit, faeces, blood, urine

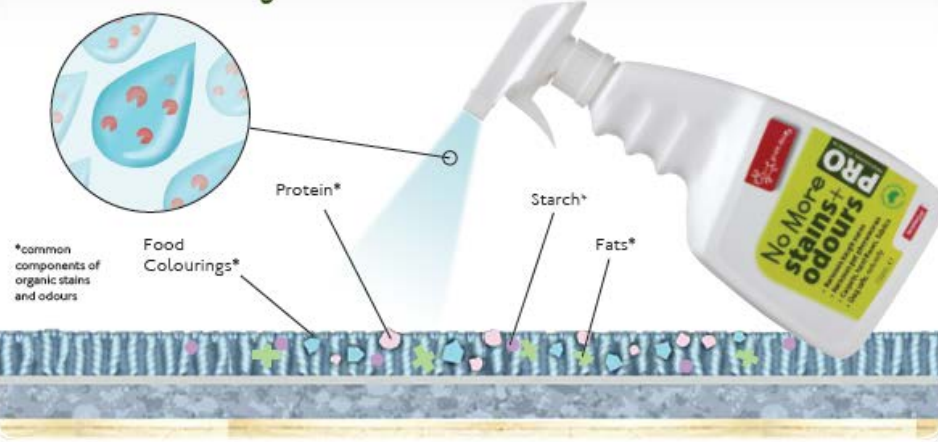

LIPASE: Breakdown fats found in vomit and faeces

Enzyme & Oxygen formula penetrates, separates & eliminates stain & odours

How often do you experience STAINS/ ODOURS that need to be treated?

What is in a common organic stain?
