Hills c/d Multicare Urinary Stress

Manufacturer: Hills Pet Nutrition

Insights - Stress is now believed to play a key role in pathogenesis of FIC, 60% of FLUTD cases are due to FIC. Vets currently manage FIC with multi-modal approach, many missing a good solution for stress removal in urinary cases. Currently no therapeutic food is available to manage FIC and Stress concurrently.

No More Stains and Odours

Manufacturer: MasterPet

This range offers pet specific enzyme and oxygen formulas that consume the molecular structure of the stain/odour, removing it completely from the environment. Common household products are often chemical cleaners that bind to pet stains and odours. This may neutralise the organic stain/odour but often fails to remove it completely. These products contain 5 different enzymes to breakdown different types of organic matter such as vomit, faeces, blood and urine.

Prascend

Manufacturer: Boehringer Ingelheim

Active Ingredient: 1.0mg pergolide (as pergolide mesylate)

Prascend is a new product to help vets manage the devastating consequences of Equine Cushing's Disease (now known as Pituitary Pars Intermedia Dysfunction). It is made from pergolide, a dopamine agonist that helps restore the natural negative feedback system necessary for pituitary hormone control. The new formulation is delivered as a stable quality tablet that guarantees access to the benefits of pergolide.

Suture Update

B Braun Catgut *Discontinued*

Cat Gut cassettes are no longer approved for importation by B. Braun into Australia.

B.Braun recommend Safil Violet and Monoplus C as alternatives. Please see our website for sizes and pricing. Otherwise 'SUTUCON Catgut' maybe a suitable alternative.

For further information, please contact your B.Braun Representative or 1800 251 706

Safil Violet

Gentle, strong and safe

- Excellent histocompatibility
- Excellent knot holding capability
- Gyconate coated
- Universal application

Once opened, the content of the cassette should be used within 6 months.

Monoplus C

A long term synthetic absorbable monofilament suture on cassette that offers good handling combined with great strength.

MonoPlus C is ideal for all indications where extended wound support is required.

Once opened, the content of the cassette should be used within 4 months.
